

Law Firm Langley

Law Firm Langley - Our law firm leads the way in the private equity marketplace with extensive involvement in some of the most significant private equity dealings in this country's history. We work with financial institutions and private equity funds in dispositions and acquisitions of businesses and associated financial transactions. Our team helps private equity fund sponsors in the ongoing maintenance and formation of funds.

Our firm has complementary practice areas from which our private equity team is able to draw. We have the depth and breadth of knowledge in order to provide our private equity clients with capital markets, mergers and acquisitions, banking, tax, antitrust, intellectual property, employment and labour, real estate, pensions and benefits, corporate governance, environmental, restructuring and insolvency skill considered necessary for successful private equity investments and management of portfolio companies.

In the private equity market, we have built relationships and contacts along with Canadian, American, as well as worldwide clients. Our close relationships will help enable us to foresee opportunities and connect our clients to each other for their mutual benefit. Some of these relationships consist of private companies and public companies, institutional investors, leading private equity firms, pension funds, venture capital firms, financial institutions, and entrepreneurs. Our private equity clients benefit from the sources of debt financing with which we could connect them. If our clients want to sell or buy businesses, we can introduce them to prospective buyers or sellers.

We are normally called upon by the lead counsel in foreign transactions so as to provide domestic legal suggestion and help with transaction execution. We regularly collaborate with global law firms in cross-border private equity transactions which otherwise have worldwide components. In foreign or overseas transactions, we work together with top foreign law companies to acquire suggestion concerning foreign legal considerations.
