

Legal Services Langley

Legal Services Langley - Our company represents several North American production companies along with a collection of service providers, federal/provincial agencies, animation houses, banks, actors, directors and writers.

Among the topics we advise our television and film industry clients are about subjects regarding distribution and co-production partners, tax credits and government funding, negotiations with broadcasters, banking transactions, union and guild problems, and any other production or financing concerns they may encounter.

For the on-location productions, we provide advice and services regarding film tax credits and withholding tax, regulatory requirements and investment rules, in addition to likely issues concerning unions and guilds within Canada and the United States.

Film, television, and the new media industries are the main focal point of our Group. Our team is a combination of different groups, including our Intellectual Property, Labour & Employment, and Tax groups. A unique perspective is developed by our head lawyer, who depends on his securities law and entertainment law skill to provide our clients with excellent suggestion about corporate and project-based funding.
