Our Class Action Group would navigate class action cases during all phases of the dispute while understanding the stresses which class action suits could place on both the defendants and the plaintiff class. Defendants in a class action are stressed by both money and time. We have ways in order to lessen disruption, and to move the issue to successful resolution in as timely and efficient a manner as possible. Our very first technique representing defendants is to try to limit the action or have it dismissed entirely at the pre-certification phase. We have a track record of accomplishing this for our clients, which means that our clients are let out of actions without ever having to take part in a certification hearing. Our aim is to resolve the litigation and avoid the need for a class action trial. We have been successful at negotiating favorable class action settlements for many of our defendant clients. This gives them peace of mind and frees them from future claims of unknown class members.

Our very first step, for the plaintiff class clientele, is to correctly limit the class while drafting the claim to minimize the certification period early on in the procedure. Our great skill helps us to correctly decide the most appropriate case whether it be a class action or large loss procedures to obtain the best outcomes.
