

Personal Injury Law Firm Langley

Personal Injury Law Firm Langley - Our Technology Law group can offer you with innovative legal solutions, whether your business is on the verge of commercializing a new technology, already a successful enterprise or in the process of starting up. Our company's value-based services will assist you develop and market innovative products.

Our lawyers offer assistance on different legal problems which impact the technology businesses these days. This can comprise all phases within the development of your technology business, particularly securing patent, copyright and trademark protection. We know the value of your intellectual property. We would carefully make joint venture agreements and financing arrangements to be able to ensure that you have the flexibility to manage your research well and continue to commercialization. We pay special attention to production arrangements, strategic alliances and licensing agreements to ensure that you acquire the maximum benefit possible from your intellectual property.

For business arrangements for technology services, we provide special consideration. Among our assistance would consist of the preparing licensing agreements, software implementation and development agreements, software support and maintenance agreements, service bureau and data centre agreements, marketing and distribution agreements and hardware maintenance and purchase agreements. We carry out project reviews and rescues, and provide recommendation concerning the legal aspects of e-commerce initiatives. We also provide guidance through the negotiation and implementation of agreements for the procurement of technology services and software.
